

IFAA Exec. Ruling 01/2017

EXECUTIVE RULING:

THE USE OF “MICARTA” IN THE RISER OF THE TRADITIONAL RECURVE BOWS.

The product called “Micarta” is considered to have similar qualities as any other thermosetting plastics.

The rule on the use of polymers in the riser of the Traditional Recurve Shooting style under IFAA By-Law article IV E, sub-article 9b therefore also applies to “Micarta”.

“Micarta” shall be used as a laminate only and it is recommended that it does not exceed 6mm in layer thickness.
